

Turnaround Services

Substantial cost savings and increased production

TIMEC has established a reputation as an exemplary turnaround service provider with multiple disciplines executed simultaneously during shutdown periods. TIMEC's Managing Contractor Approach offers its clients a single point of contact throughout the turnaround. Utilizing the best multi-skilled craftsmen from the different service divisions, TIMEC's clients enjoy substantial cost savings and increased productivity leveraged by the company's abilities to plan, forecast and manage all aspects of the turnaround. TIMEC's safety performance consistently earns more NPRA safety awards than any other turnaround contractor.
